Enhancing healthcare excellence through global cooperation

Abstract:

As the global community faces the escalating challenges posed by climate change, it is crucial to recognize the profound impact of these environmental dynamics on healthcare systems worldwide. The convergence of climate change and healthcare (e.g., psychiatry) presents an urgent need for enhanced collaboration and global cooperation to ensure healthcare excellence and sustainability.

Biography

Kadir Uludag holds Ph.D. in Applied psychology (Chinese Academy of Sciences). He is currently doing postdoc in Shanghai Jiaotong University Mental Health Center. His research interest includes schizophrenia research, drug addiction and educational psychology. In addition, he runs a website to share and comment on peer-reviewed articles (ifx0.com).
